

The Farnham Society

MEMBERSHIP REPORT

We have 660 members recorded on our database.

Of those, 94 have signed up to pay by direct debit and the remaining membership have chosen to either pay by standing order/faster payment, cash or cheque.

With direct debit payments we must pay an administration charge every time a payment is processed or altered. In addition, the Bank is now starting to charge for the account service they provide. Under normal circumstances I would be recommending that we raise our annual subscription charge to cover these extra costs. However, as the Society's finances are in a healthy situation, any increase in fees can be postponed for the time being.

I am pleased to report that we are receiving regular enquiries to join the Society which is encouraging.

Compared with other Civic Societies our membership is strong and the activities varied.

Over the next few months, I shall be carrying out a periodic review of our current data base to ensure the information that we have on record is correct. A private and confidential email will be sent out individually to everyone to ensure we have captured their correct details.
